PROJECTS

QR Drop (Gnome Desktop Extension)

Tech Stack: JavaScript, GTK, Gnome Shell

An open-source Linux extension allowing users to share files instantly from their desktop to mobile via QR codes. Demonstrates deep system integration and open-source contribution skills.

Live Link: <https://extensions.gnome.org/extension/9030/qr-drop/>

Github Repo: <https://github.com/shuv-on/qr-drop>

AssetVerse

Tech Stack: MERN Stack (MongoDB, Express, React, Node.js), Tailwind CSS

A comprehensive Asset Management System designed for organizations to track and manage company assets. Features include employee asset requests, HR approval workflows, PDF report generation, and real-time stock tracking.

TravelEase

Tech Stack: React, Firebase, Tailwind CSS, Express.js

A user-friendly tourism management platform enabling users to browse destinations, book tour guides, and manage trip plans. Includes a dynamic dashboard for admins to manage packages and user bookings securely.

EDUCATION

B.Sc. in Information and Communication Technology (ICT)

Mawlana Bhashani Science and Technology University (MBSTU) |

August, 2023 - Present

Present CGPA: 3.39 | Focus: Data Structures, Algorithms, OOP, Database Systems.

ACHIEVEMENTS

- Problem Solving: Solved 500+ problems on LeetCode and CodeForces combined.
- Open Source: Developer of 'QR Drop', published on Gnome Extensions website.
